

Berkeley Cal Feb 27/91

Mr Jerome Watson

My Dear Sir

I would very cheerfully undertake to <sup>give</sup> you the information you desire if it was anything of a botanical or had anything to do with the Herbarium

But Mr Greene is not my assistant if he is assistant to any one it must be to the Chair of Agriculture. (Prof. Kellogg) But I regard him as wholly independent of the botanical department and of the herbarium. I have just seen him and I am quite sure he is willing & anxious to give you any assistance he can in any way.

I have not shown him your letter of course, but I am sure from the general tenor of his conversation that he entertains none other than the highest regard for you. I have given him the enclosure and he will doubtless make

the Commission & wish you  
Very truly yours  
Joseph L. Cantu
